CHAIRMAN'S CORNER

I wish all a Merry Christmas and a Happy New Year during this season of celebration and thanks. The Village of Sterling has experienced a good 2018. The Village has seen 4 new houses with more in the planning stages, a water tower rehab resulting in better water for citizens, a new community center under way, the cleaning up of properties, school programs with great records in sports and academics, and very successful community celebrations to name a few. This all happened with the support of the previous Village Board and our school leaders. The current elected Board plans on keeping the good things happening and making 2019 a great year for the Village of Sterling. Let's keep the good things going!

—John Keizer, Chairman of the Board
